Frontend: React.js, Next.js, Angular, Tailwind CSS, Sass, Material UI, shadcn/ui, Bootstrap

State Management: Redux Toolkit, Zustand, Context API

Backend & Database: Prisma, PostgreSQL, Neon, Convex, Supabase, MongoDB

Tools & Libraries: Git, GitHub, Bitbucket, Axios, Zod, Socket.io, React Query

Practices: REST APIs, Responsive Design, Clean Code Architecture, Agile/Scrum, PWAs

PROFESSIONAL EXPERIENCE

Software Engineer | **Techquadra Software Solutions** — Nagpur, MH *Nov 2025 – Present*

- Developed P2P Assures, a role-based P2P auction platform supporting Buyer, Seller, Checker, Maker, and Admin workflows.
- Implemented real-time buyer-seller chat with Firebase and WebSocket-based live auctions and counter-offer functionality.
- Developed end-to-end RFQ, bidding, negotiation, and offer acceptance/rejection workflows with responsive React interfaces.
- Developed TGA (Twilight Grey Academy), an enterprise learning management platform using React, TypeScript, Tailwind CSS, and AWS.
- Developed core modules including Course Master, Batch Master, Course Content Management, Assessments, Course Preview, and Batch Progress.
- Integrated REST APIs and implemented complex course-content and assessment workflows using reusable and React components.
- Maintained separate Dev, UAT, and Production branches to support structured development, testing, and release workflows.
- Configured Bitbucket Pipelines to automate the application build and deployment process across environments.
- Containerized the application using Docker and deployed the frontend on AWS Fargate.

Freelance Frontend Developer | **Remote** — *Jun 2025 – Oct 2025*

- Delivered custom web applications for multiple clients using React.js, Next.js, and Angular
- Designed responsive UIs with Tailwind CSS and Material UI; integrated RESTful APIs with Redux Toolkit and Zustand

React Developer | **Makku Enterprises Pvt Ltd** — Patna, Bihar — Remote *Jun 2024 – May 2025*

- Developed Awasar CRM — a platform for 4 user roles (Admin, Teacher, Staff, Student) for a coaching institute using React, Redux, and Bootstrap
- Built Live Classes, Attendance tracking, Exam Creation, dynamic Dashboard Graphs, and Study Materials management serving thousands of users
- Led frontend of HomeGurus, a construction services marketplace with vendor bidding, quote creation, and secure payment integration
- Worked on Automotive Quality Assurance - designed for inspection & Valuation of automobiles with a detailed vehicle report.

PROJECTS

Notion Clone (Jotion) | *Next.js, Tailwind CSS, TypeScript, Convex, Edgestore, Clerk Auth* [Live Demo](#) | [GitHub](#)

- Advanced note-making app with full CRUD, note publishing, and real-time collaboration
- Implemented cloud-based image management via Edgestore with secure authentication via Clerk Auth

Learning Management System (LMS) | *Next.js, TypeScript, Prisma, PostgreSQL, Uploadthing, Mux* [Live Demo](#) | [GitHub](#)

- Built a Udemy-like course-selling platform with full course management, video/image/PDF uploads via Uploadthing and Mux
- Implemented strict role-based access control ensuring only course creators can modify their content

EDUCATION

Master of Computer Applications (Major in Cloud Computing)

Manipal University, Jaipur, Rajasthan *Sep 2026 – Aug 2028*

Bachelor of Science in Computer Science (Minor in Mathematics)

Guru Nanak College of Science, Ballarpur, Maharashtra *Aug 2020 – May 2023*
